

How to Answer: "Christian Faith Is Just a Crutch!"

01

"When You Say That, What Are You Assuming?"

They are assuming that it is possible to be spiritually, mentally and morally healthy without any help from God. They assume they have all they need within themselves.

02

"What Standard of Health Do You Have In Mind?"

"Healthy" functioning properly. Without God, why even think there is such a thing as "proper?" What's the standard?

03

"What Do You Mean by Christian Faith?"

They think the point of Christian faith is just to offer feelings of peace, fulfillment and moral guidance. They think they don't need this. But this is not what Christianity is!

04

"Your Objection Actually Uses Christian Ideas."

Unlike the non-Christian's worldview, the Christian worldview gives a standard for spiritual health: the peace of God which is found in Christ Jesus (Romans 5:1).

05

"Here Is My Own Story of What Jesus Has Done?"

As a Christian, how has Jesus transformed your thought life, words, and lifestyle? Talk about how Christianity isn't just a crutch but rather Jesus has raised you from death to newness of life (Romans 6:4).

06

"Have You Ever Heard the Gospel? May I Share It?"

The core message of Christianity is not that we need a "crutch" to become spiritually or morally better. Our sin earned death, and Jesus died for sinners like us, was buried and rose again. Now He reigns and gives eternal life to everyone who believes in Him.
